

BARGAINING UPDATE

EXPERTECH CRAFT #3

To Sisters and Brothers;

Your Bargaining Committee met this week as planned. The exchanges with the Company focused on the monetary issues of the Collective Agreement. As you are aware, this part is always more complex and as you may have guessed, the Employer is proceeding cautiously. We have had frank discussions on our expectations. The Employer will be getting back to us with their positioning at the next round of bargaining in regards to the discussions we had on job security issues. This information will allow us to correctly evaluate the direction the discussions will take, with a continued focus on our priorities.

Our next meeting is scheduled for the week of November 9th, 2020, and we believe that this week of bargaining will be critical to our work. Our efforts to secure an Agreement will continue to be at the forefront.

If you haven't already done so, it is now very important at this stage of bargaining that you give us your email and telephone number by clicking on the following link, in order to ensure that you receive the most up-to-date information on the bargaining proceedings.
